LICENSING & REVIEW

1. All individuals reviewing this application are required under 35 USC 181 to sign and date this form regardless of whether they are making a secrecy order recommendation.

1. The attached copy of the application, any copies made therefrom and this form must be returned to the PTO once a recommendation not to impose secrecy has been made or a secrecy order has been rescinded.

Pursuant to 35 U.S.C. 184, the subject matter of this application may be filed in a foreign country for the purpose of filing a patent application without a license any time after the expiration of 6 months from filing date unless the application becomes the subject of a secrecy order.

4. In this study, children's problem representations at 6 months from the 10th to 20th percentile were followed during the 12-18 month period to determine the prediction of an increase in problem-solving behavior. The children were followed under naturalistic conditions and no specific interventions were implemented. The children from the 10th percentile group were followed to 24 months. The prediction was made that the children in 6 months from the 10th percentile group at 90 days post-birth would "have a significant increase in problem-solving behavior" as measured by the "CDI". The prediction was made that children in the 10th percentile group at 90 days post-birth would have a significant increase in problem-solving behavior.
